

# Cefn Community Council Community Feasibility Studies:

## YOUR help is needed? NOW

Cefn Community Council are pleased to announce they have secured funding from the European funded LEADER programme, which is administered by Cadwyn Clwyd, to conduct feasibility studies on Community Transport needs and the Community Facilities and Activities.

PRAXIS, an experienced Community Development consultancy, have a team (Jayne Mills, John Gallanders, Vicky Bolton and Dylan Gallanders) who will over the next couple of months be making a wide range of contacts within the Cefn Community Council area of Acrefair, Cefn Bychan, Cefn Mawr, Newbridge, Penybryn and Rhosymedre.

The views of local residents and organisations is crucial. Please use this link to respond to help gain more information on any transport issues you may be facing  
<https://forms.office.com/r/sADTqeDdsW>

A general survey (Community Consultation 'Have your say!') of the views of residents has been circulated before by Cefn Community Council but we need more residents to complete this to ensure as many views as possible are included.

If you are involved running any activities or groups in the community please email [cefnccfeasabilitystudy@gmail.com](mailto:cefnccfeasabilitystudy@gmail.com) to ensure the consultants can make contact with you.

There will be a variety of engagement events in the next few months – if you would like to attend or be kept UpToDate please email [cefnccfeasabilitystudy@gmail.com](mailto:cefnccfeasabilitystudy@gmail.com)

The findings from the feasibility studies will be drawn together in reports by the middle of February to help Cefn Community Council and the broader community to shape the type of support that will help to make the Cefn Community Council a place for residents to be proud of living.

What is in it for you to take part? It will provide you with:

- Information will be available about potential support – funding, training
- Details of potential gaps in activities your organisation could develop
- Information on recruiting volunteers
- Help to understand what is going on across the communities

The success of the project will be dependent on all our community organisations being able to provide the information the consultants are seeking. The more information available the more accurate the analysis will be to support the future.
